High Dividend Yield with Pricing Power

A company with a dividend yield of more than 6.5 per cent and with pricing power to maintain its margin in the current inflationary scenario. This company is related to healthcare sector. Mostly, its products have no good alternatives. The profits have increased by a factor of 3 in last 6 years. Currently with expenditure on health care increasing it is likely to grow at a slightly faster pace. At the end of six years we expect a total return of 20 per cent per annum. So, with dividend reinvested Rs 100 invested would become Rs 300 at end of six years, after tax.
